## PROFESSIONAL SUMMARY

Systems Engineering student with practical experience in full-stack web development and a strong commitment to leveraging technology for social impact. Currently on academic exchange at UNICAMP (Brazil), expanding expertise in software engineering and database systems. Proven ability to lead educational initiatives and collaborate across diverse teams in multicultural environments.

## EDUCATION

**Universidade Estadual de Campinas (UNICAMP)** | Campinas, Brazil

Academic Exchange Program | Aug 2025 - Present

- Coursework: Software Engineering, Database Systems, Algorithm Design, Operating Systems
- Developing cross-cultural collaboration skills in international academic environment

**Universidad Nacional Hermilio Valdizán (UNHEVAL)** | Huánuco, Peru

B.Sc. in Systems Engineering | 2023 - Present (Expected graduation: 2027)

- Relevant coursework: Programming Fundamentals, Information Systems Analysis & Design, Database Modeling
- Active participation in social responsibility programs

## PROJECTS & EXPERIENCE

Transportation Management System - "Transporte Huánuco" | Academic Project

Full-Stack Developer | 2024

- Designed and developed prototype web platform for transportation company operations management
- Implemented user authentication system with role-based access control (admin, driver, customer)
- Created booking management system with real-time availability tracking
- Developed driver fatigue monitoring feature to promote road safety compliance
- Technologies: React, Node.js, MySQL, Tailwind CSS, Git
- Key learning: End-to-end software development lifecycle, database design, API development

"Programando Sonrisas" - Educational Outreach Program

Programming Instructor | 2025

- Taught programming fundamentals using Scratch to elementary school students (ages 8-12)
- Designed interactive, age-appropriate curriculum introducing computational thinking concepts
- Mentored 20+ students in underserved communities, fostering early interest in technology
- Collaborated with educational institutions to deliver engaging learning experiences

## TECHNICAL SKILLS

### Programming & Development

- Languages: JavaScript, C, HTML, CSS
- Frontend: React, Tailwind CSS
- Backend: Node.js, Express
- Database: MySQL, Database modeling (ER diagrams, normalization)
- Version Control: Git, GitHub

### Tools & Platforms

- Development: VS Code, npm, REST APIs
- Design: Figma (basic), Database design tools
- Methodologies: Agile principles, collaborative development

## PROFESSIONAL SKILLS

- Cross-cultural Collaboration: Thriving in international academic environment (Brazil)
- Team Leadership: Experience coordinating group projects and mentoring students
- Fast Learner: Quickly adapting to new technologies and frameworks
- Problem-Solving: Analytical approach to breaking down complex technical challenges
- Communication: Effective in multicultural, multilingual settings

## LANGUAGES

- **Spanish:** Native
- **English:** Basic proficiency
- **Portuguese:** Conversational (actively improving through immersion)

## INTERESTS & ACTIVITIES

Sports enthusiast (football, jiu-jitsu) | Cooking | Travel & cultural exploration
